ORGANIC BURNT SUGAR LIQUID (E150a)

PRODUCT
CODE: 49

T041224M000000A140224

1. PRODUCT IDENTIFICATION

1.1 Supplier product information

Product name	Organic burnt sugar liquid		
Product code	49		
Product number	Content	EAN	Packaging
1708	100ml	8718309832247	Plastic bottle and screw lock cap with warranty seal.  Bottle =  Cap =  Inner plug =
1709	250ml	8718309832254	
1710	1L	8718309832261	
1911	5L	8718309834296	Jerrycan and cap =  with warranty seal.
1711	25kg / 18,63L	8718309832278	

1.2 Scientific product information

Combined ingredient	
Main use	Flavouring, colouring
Chemical name	Plain caramel
Composition	In descending order of weight; Organic cane sugar, water
Production method	Organic burnt sugar is a dark brown liquid, obtained by the controlled heat treatment of cane sugar coming from organic agriculture. It has a distinctive intense and strong odour and taste of caramelised cane sugar.

1.3 Legislative product information

CAS number	8028-89-5	HS code (customs)	1702 90
EU food additive	E150a		
Country of Origin	France		
Certification	Organic	Certification number	103446
	Institute	Skal NL-BIO-01	
Labeling (EU regulation)	Legal labelling (aromatic caramel)	"caramel (organic cane sugar, water)" or "aromatic caramel (organic cane sugar, water)" or "pure sugar caramel (organic cane sugar, water)"

3.3 GMO Declaration:

Organic burnt sugar liquid does not contain genetically modified organisms and is not produced using raw materials of a genetically modified origin. At no stage during production does the product comes into contact with genetically modified organisms.

4. STORAGE CONDITIONS

Storage conditions	Store in a clean and dry place at ambient temperature (about 15-20°C) in closed original packaging. Caramel, which has been stored at low temperature (less than 15°C), is liable to crystallize. All caramel colours have a tendency to get darker over time. After prolonged storage the caramel colour can still be used but the addition level should be adjusted accordingly. We recommend storage at 20°C to maintain colour and viscosity stability. Viscosity can change with the temperature (caramel has a high viscosity at low temperatures). This phenomenon can be reversed by warming the caramel at 20°C.
Shelf life	24 months after production, under the above mentioned conditions.

5. FOOD SAFETY

5.1 Hygiene:

This product is produced in a facility with an on HACCP based food safety system.

5.2 Identifications of dangers:

Classification of the substance (Regulation (EC) No 1272/2008)	Not classified. (non-hazardous)
--	---------------------------------

6. EXTENDED PRODUCT INFORMATION

6.1 Usage

Burnt sugar is a dark brown liquid, obtained by the controlled heat treatment of cane sugar coming from organic agriculture. It has a distinctive full and strong odour and taste of burnt cane sugar. It is a rich flavoring for hot and cold drinks. Or incorporate it in your sweet and savoury fillings. Burnt sugar brings strong caramel taste & colour to all your delicious creations.

Ice cream

Burnt sugar brings both caramel taste & colour to ice creams. It offers an intense sensory experiences. It's great for blending into the ice cream mix to enhance taste and colour. And good for colouring caramel, coffee, vanilla, chesnut, rum and raisins ice creams.

Soft drinks

Burnt sugar is stable in soft drinks, it brings both colour and taste. The colour of soft drinks can be standardized by burnt sugar in order to obtain beautiful golden or red/brown shades.

Beer

PRODUCT SPECIFICATION

ORGANIC BURNT SUGAR LIQUID (E150a)

PRODUCT
CODE: 49

Caramel colours can bring various standardized shades of brown to beers. Our burnt sugar is perfect for craft beers because it's stable in brewed beverages.

Alcohols

Burnt sugar is great for colouring and enhancing shades of whiskey, cognac, liquor and other spirits. When aged in barrels, spirits don't always have the same colour. Therefore, caramel colours are used to standardize and enhance the brown shades of spirits. Burnt sugar is stable in alcohol up to 75°C and in the presence of tannins.

Ingredients: organic caramel (cane sugar, water)

DOSAGE

Application	Caramel mild liquid	Caramel strong liquid	Burnt sugar liquid
Ice creams (mixed in the mass)		10-15%	
Ice creams (pure as a layer or swirl)	15%		
Ice creams (colouring)			Be colourfull
Topping	10%		
Coffee	10-20%	1-10%	
Chocolate (Filling)	50-60%		
Chocolate (mixed in the filling)		15-30%	
Beer (during or after the brewing process)			≈0,5% standardisation 1% colouring
Vinegars			0,5 - 4%
Wines, liquors, vermouths			0,2 - 2%
